

## Guideline for country reports (proposal)

### 1.) **Introduction**

- a. Total forest area
- b. Most common species
- c. Inventory results (area of forest types, absolute and relative amount of target tree species, etc.)
- d. Relevance of valuable broadleaved tree species regarding ecological, economical and social aspects

2.) **Completed research** in different specialist areas (genetics, forest growth and silviculture, landscape, environmental and aesthetic aspects) concerning valuable broadleaves

3.) **Recent research** concerning valuable broadleaves

4.) **Important Literature**
