

Jari Hynynen, Pentti Niemistö, Erkki Verkasalo & Anneli Viherä-Aarnio
COST E42 Growing Valuable Broadleaved Tree Species

Sept 29, 2006

SELECTED FINNISH LITERATURE ON BROADLEAVED TREE SPECIES, UPDATE

31. Ecology, genetics and forest tree breeding

Koski, V. 1991. Experience with genetic improvement of birch in Scandinavia. P. 67-73 in *The commercial potential of birch in Scotland*, Lorrain-Smith, R., and R. Worrell (eds.). FICGB, London, United Kingdom.

Li, C., Welling, A., Puhakainen, T., Viherä-Aarnio, A., Ernstsén, A., Junttila, O., Heino, P. & Palva, T.E. 2005. Differential responses of silver birch (*Betula pendula*) ecotypes to short day photoperiod and low temperature. *Tree Physiology* 25: 1563-1569.

Oksanen, E., Freiwald, V., Prozherina, N. & Rousi, M. 2005. Photosynthesis of birch (*Betula pendula*) is sensitive to springtime frost and ozone. *Can. J. For. Res.* 35: 703-712.

Oksanen, E., Riikonen, J., Kaakinen, S., Holopainen, T. & Vapaavuori, E. 2005. Structural characteristics and chemical composition of birch (*Betula pendula*) leaves are modified by increasing CO₂ and ozone. *Global Change Biology* 11: 732-748.

Pekkinen, M., Varvio, S., Kulju, K.K.M., Kärkkäinen, H., Smolander, S., Viherä-Aarnio, A., Koski, V. & Sillanpää, J. 2005. Linkage map of birch, *Betula pendula* Roth, based on microsatellites and amplified fragment length polymorphisms. *Genome* 48: 619-625.

Peltonen, P.A., Vapaavuori, E. & Julkunen-Tiitto, R. 2005. Accumulation of phenolic compounds in birch leaves is changed by elevated carbon dioxide and ozone. *Global Change Biology* 11: 1305-1324.

Rousi, M. & Pusenius, J. 2005. Variations in phenology and growth of European white birch (*Betula pendula*) clones. *Tree Physiology* 25(2): 201-210.

Ryynänen, L. & Aronen, T. 2005. Genome fidelity during short- and long-term tissue culture and differentially cryostored meristems of silver birch (*Betula pendula*). *Plant Cell, Tissue and Organ Culture* 83: 21-32.

Ryynänen, L. & Aronen, T. 2005. Vitrification, a complementary cryopreservation method for *Betula pendula* Roth. *Cryobiology* 51: 208-219.

Sillanpää, M., Kontunen-Soppela, S., Luomala, E.-M., Sutinen, S., Kangasjärvi, J., Häggman, H. & Vapaavuori, E. 2005. Expression of senescence-associated genes in the leaves of silver birch (*Betula pendula*). *Tree Physiology* 25: 1161-1172.

Tiimonen, H., Aronen, T., Laakso, T., Saranpää, P., Chiang, V., Ylioja, T., Roininen, H. & Häggman, H. 2005. Does lignin modification affect feeding preference or growth performance of insect herbivores in transgenic silver birch (*Betula pendula*)? *Planta* 222:699-708.

Vakkari, P., Blom, A., Rusanen, M., Raisio, J. and Toivonen, H. 2006. Genetic variability of fragmented stands of pedunculate oak (*Quercus robur*) in Finland. *Genetica* 127:231-241.

Viherä-Aarnio, A., Häkkinen, R. & Junntila, O. 2006. Critical night length for bud set and its variation in two photoperiodic ecotypes of *Betula pendula*. *Tree Physiology* 26: 1013-1018.

Viherä-Aarnio, A., Häkkinen, R., Partanen, J., Luomajoki, A. & Koski, V. 2005. Effects of seed origin and sowing time on timing of height growth cessation of *Betula pendula* seedlings. *Tree Physiology* 25(1): 101-108.

Viherä-Aarnio, A. & Heikkilä, R. 2006. Effect of the latitude of seed origin on moose (*Alces alces*) browsing on silver birch (*Betula pendula*). *Forest Ecology and Management* 229: 325-332.

Viherä-Aarnio, A. & P. Velling, P. 1999. Growth and stem quality of mature birches in a combined species and progeny trial. *Silva Fenn.* 33:225-234.

Ylioja, T. 2000. Relationship between *Phytobia betulae* and its host tree *Betula sp.*. University of Joensuu, Faculty of Forestry, Res. Pap. 112. 26 p. + 5 appendices. Doctoral thesis.

32. Silviculture, forest management planning and forest economics

Ahtikoski, A., Päätaalo, M-L., Niemistö, P., Karhu, J. & Poutiainen, E. 2004. Effect of alternative thinning intensities on the financial outcome in silver birch (*Betula pendula* Roth) stands: a case study based on long-term experiments and MOTTI stand simulator. *Baltic For.* 10(2): 46-55.

Gustavsen, H.G. & Mielikäinen, K. 1984. Site index curves for natural birch stands in Finland. *Folia For.* 597:1-20. (in Finnish with English summary)

Hynynen, J. & Sanaslahti, A. (eds.). 2002. Management and utilisation of broadleaved tree species in Nordic and Baltic countries – Birch, aspen and alder. Proceedings of the Workshop held in Vantaa, Finland, May 16 to 18, 2001. Finnish For. Res. Inst., Res. Pap. 847: 7-18.

Hynynen, J., Ojansuu, R., Hökkä, H., Siipilehto, J., Salminen, H. & Haapala, P. 2002. Models for predicting stand development in MELA System. Finnish For. Res. Inst., Res. Pap. 835. 116 p.

Kärki, T. 2000. Species, furniture type, and market factors influencing furniture sales in Southern Germany. *For. Prod. J.* 50(4): 85-90.

Kärki, T., Eerikäinen, K., Heinonen, J. & Korhonen, K.T. 1999. [Volume tables of grey alder (*Alnus incana*)]. Metsätieteen aikakauskirja – Folia Forestalia 1/1999: 39-49. In Finnish.

Kärki, T., Maltamo, M. & Eerikäinen, K. 2000. Diameter distribution, stem volume and stem quality models for grey alder (*Alnus incana*) in eastern Finland. *New Forests* 20(1): 65-86.

Mäkinen, H., Ojansuu, R. & Niemistö, P. 2003. Predicting external branch characteristics of planted silver birch (*Betula pendula* Roth.) on the basis of routine stand and tree measurements. *For. Sci.* 49:301-317.

Niemistö, P. 1995a. Influence of initial spacing and row-to-row distance on the crown and branch properties and taper of silver birch (*Betula pendula*). *Scand. J. For. Res.* 10:235-244.

Niemistö, P. 1995b. Influence of initial spacing and row-to-row distance on the growth and yield of silver birch (*Betula pendula*). *Scand. J. For. Res.* 10:245-255.

Niemistö, P. 1996. Yield and quality of planted silver birch (*Betula pendula*) in Finland - Preliminary review. *Norw. J. Agr. Sc., Suppl.* 24: 51-59.

Niemistö, P. & Väärä, T. (eds.). *Silver Birch Today and in the Future*. Research Day in Tampere, March 12, 1997. Finnish For. Res. Inst., Res. Pap. 668: 127-140. In Finnish.

Oikarinen, M. 1983. Growth and yield models for silver birch (*Betula pendula*) plantations in southern Finland. *Commun. Inst. For. Fenn.* 113. 75 p. (in Finnish with English summary)

Raulo, J. 1977. Development of dominant trees in *Betula pendula* Roth and *Betula pubescens* Ehrh. plantations. *Seloste: Viljeltyjen raudus- ja hieskoivikoiden valtapuiden kehitys. Commun. Inst. For. Fenn.* 90(4).

Valkonen, S., Rantala, S. & Sipilä, A. 1995. [Cultivation and management of noble broadleaf trees and common alder] Finnish For. Res. Inst., Res. Pap. 575. 112 p.

33. Wood science and technology

Asikainen, A. 2002. Chemistry and discolouration of birch wood. In: Paavilainen, L. & Marttila, S. (eds.). Finnish Forest Cluster Research Programme WOOD WISDOM (1998-2001). Final report. Report 3/2002.

Hallaksela, A.M. & Niemistö, P. 1998. Stem discoloration of planted silver birch. *Scand. J. For. Res.* 13:169-176.

Heräjärvi, H. 2001. Internal knottiness with respect to sawing patterns in *Betula pendula* and *B. pubescens*. *Baltic For.* 8(1): 42-50.

Heräjärvi, H. 2001. Technical properties of mature birch (*Betula pendula* and *B. pubescens*) for saw milling in Finland. *Silva Fenn.* 35:469-485.

Heräjärvi, H. 2002. Properties of birch (*Betula pendula*, *B. pubescens*) for sawmilling and further processing in Finland. Finnish For. Res. Inst., Res. Pap. 871. 52 p. + App. Doctoral thesis.

Heräjärvi, H. 2004. Static bending properties of Finnish birch wood. *Wood Sci. Tech.* 37(6): 523-530.

Heräjärvi, H. 2004. Variation of basic density and Brinell hardness within mature *Betula pendula* and *B. pubescens* stems. *Wood and Fib. Sci.* 36(2): 216-227.

Heräjärvi, H. 2006. Static bending and swelling properties of strand-made beams of *Pinus sylvestris* and *Betula* sp. In: Morlier, P., Morais, J. & Dourado, N. (eds.). Proceedings of the third International Conference of the European Society for Wood Mechanics (ESWM), 5-8 September 2004. UTAD, Vila Real. pp. 3-10.

Heräjärvi, H., Jouhiahho, A., Tammiruusu, V. & Verkasalo, E. 2004. Small-diameter Scots pine and birch timber as raw materials for engineered wood products. *Int. J. For. Eng.* 15(2): 23-34.

Heräjärvi, H. & Junkkonen, R. 2006. Wood density and growth rate of European and hybrid aspen in southern Finland. *Baltic For.* 12(1): 2-7.

Heräjärvi, H., Junkkonen, R., Koivunen, H., Metros, J., Piira, T. & Verkasalo, E. 2006. European and hybrid aspen as raw material of sawn timber and mechanical further products. Working Papers of the Finnish Forest Research Institute 31. 102 p. In Finnish.
<http://www.metla.fi/julkaisut/workingpapers/2006/mwp031.htm>.

Heräjärvi, H. & Verkasalo, E. 2002. Timber grade distribution and relative stumpage value of mature Finnish *Betula pendula* and *B. pubescens* when applying different bucking principles. *For. Prod. J.* 52(7/8): 40-51.

Heräjärvi, H., Verkasalo, E., Kaurala, H. & Lehtimäki, J. 2000. Properties and utilisation of birch (*Betula pendula*, *B. pubescens*) for saw milling and further processing in Finland. In: Usenius, A. & Kari, P. (eds.). Proceedings of COST Action E10 Wood Properties for Industrial Use, Third Workshop on Measuring of Wood Properties, Grades and Qualities in the Conversion Chains and Global Wood Chain Optimisation, 19th – 21st June, 2000, Dipoli, Espoo, Finland, pp. 83-102.

Junkkonen, R. & Heräjärvi, H. 2006. Bending strength and fracture of finger-joints of modified and unmodified *Populus* sp. components: a comparison of air-dry and wet wood jointed with six different glues. In: Fioravanti, M. & Maccioni, N. (eds.). Pre-proceedings of the International Conference on Integrated Approach to Wood Structure, Behaviour and Applications. Joint meeting of the European Society for Wood Mechanics and COST Action E35, Florence, Italy, May 15-17. pp. 274-279.

Kärki, T. 1999. Predicting the value of alder logs (*Alnus incana*) based on external quality. *Silva Fenn.* 33(1): 13-23.

Kärki, T. 2000. Grey alder (*Alnus incana*) as a raw material for mechanical wood processing in Finland. Finnish For. Res. Inst., Res. Pap. 764. 48 p. + App. Doctoral thesis. In Finnish.

Kärki, T. 2001. Variation of wood density and shrinkage in European aspen (*Populus tremula*). Variation der Holzdichte und des Schwindverhaltens in *Populus tremula*. *Holz Roh. U. W.* 59(1/2): 79-84.
